

## Environmental Funding Opportunity for Business

The Environmental Protection Agency has funding available in grant aid under Phase 5 of the Cleaner Greener Production Programme (CGPP5) and the EPA National Waste Prevention Programme (NWPP) to assist organisations to become cleaner and greener.

If your organisation wants to improve its environmental performance, profits, efficiency and public image, then the CGPP is for you.

The aim of the CGPP is to encourage better business practices, helping to reduce the consumption of resources and avoid the generation of pollution. This provides a win-win solution as organisations reduce costs while reducing their environmental impact.

### **Funding • Training • Publicity • Support**

The available grant-aid will range from €5,000 to €25,000 depending on project scope.

## Application Process & Information

Detailed Call Information and Guidance on the **On-Line** Application process are available on <http://www.epa.ie/researchandeducation/research/funding/current/> and [www.cleanerproduction.ie](http://www.cleanerproduction.ie)

All applications for the CGPP5 call should be carried out in a two-step process:

1. **Submission of proposals** by applicants (before the Call Deadline: **5pm 27th August 2010**) for authorisation by Research Offices / Managing Directors for companies;
2. **Authorisation of Proposals** by Research Offices / Managing Directors for companies (before the Organisation Approval Deadline: **5pm 10th September 2010**).

**Proposals MUST have Organisational Approval to be VALID**

EPA Terms and Conditions for support of Grant Awards and Guide for Applicants are available on the EPA website ([www.epa.ie](http://www.epa.ie)).
